RICHMOND BEHAVIORAL HEALTH FOUNDATION

Richmond Behavioral Health Foundation, a 501(c)(3) nonprofit organization, was established in 2010 at the direction of the Richmond Behavioral Health Authority (RBHA) Board of Directors to support the programs and services of RBHA and the people served through these programs.

RBHF Resource & Funding Priorities:

Program funding where there are gaps in funding or where no other funding exists

Innovative programs to promote health & wellness

Funding to support activities and opportunities that enhance treatment outcomes for individuals and families receiving services

Collaborative community partnerships to increase resources for programs, services, and individuals receiving services and their families

RBHF partners with people and organizations across our community to create opportunity, provide resources, and secure the funding needed to support the programs of RBHA and the people we serve.

The generosity of our supporters makes a direct impact in the lives of many in our community.

DIY VOLUNTEER PROJECTS

Each spring and fall, RBHF makes a request to our community to donate "kits" to support the individuals and families we serve.

Each spring and fall, you all continue to amaze us with your kindness and generosity.

Individuals, families, groups of friends, neighborhoods, civic associations, churches, schools, corporate partners - we are grateful for everyone's participation.

DIY VOLUNTEER PROJECTS

- **Nourishment Kits**
3073
- **Activity Kits**
85
- **Personal Care Kits**
777
- **Cold Weather Item Kits**
753

Each of these kits go directly and quickly into the hands of people in need.

Often these donations are met with smiles, sometimes with tears, but always with gratitude.

Connect with us on one of our social media pages or our newsletter to learn about volunteer opportunities throughout the year.

MONETARY DONATIONS

Monetary donations are vital to the programs and services of RBHA - and the people served through these programs. Unrestricted donations allow us to designate funds to programs and services as needs are identified.

This year, **because of your support**, RBHF was able to fund 6 different projects for 6 programs at RBHA, providing benefit to hundreds of individuals and families.

Stories written because of you.

Refresh for Recovery Campaign

In FY23, RBHF Board Member Tom Maness, offered \$5,000 to initiate a RBHF Board Member Match fundraiser to fund an outstanding (meaning not yet completed) physical project that had been determined ineligible for grant or other funding.

The designated project was called **Refresh for Recovery** with the purpose of raising \$10,000 to paint and refresh the entry, dining hall, and common areas of the 1700 Front St. Building at North Campus. The campaign was successful and \$10,000 was raised for the project. Painting to be completed soon.

GRANTS

We are fortunate and grateful to be the recipient of grants from private foundations, churches, and corporations. These grants provide us the opportunity to meet needs across our organization.

ROBINS FOUNDATION HERNDON FOUNDATION MOLINA CARES FOUNDATION

All contributed funding to support and enhance the Children's Services Center learning environment – both inside and outside – for the children and mothers we serve at RBHA North Campus. Funding includes a new playground scheduled to be constructed in September 2023.

DOMINION ENERGY CHARITABLE FOUNDATION

This grant award supports community inclusion opportunities for youth with mental health issues - specifically our Therapeutic Day Treatment Program and CReST Children's Services.

RICHMOND CHRISTMAS MOTHER

RBHA Child & Family Services were able to identify 5 families to support for the Christmas Holiday - gifts for all and a holiday meal.

WOMEN OF ST STEPHENS CHURCH

Funding to purchase car seats and strollers for women completing residential treatment to remove transportation barriers for continued treatment in outpatient services.

ALTRIA ACT

Funding for Outreach Supplies for RBHA Homeless Services Team and funding to assist individuals with move-in costs once permanent housing is secured.

ALTRIA/CHANGING OUR WORLD

Funding for a pilot program that will address barriers to tobacco cessation that exist for individuals of the Black and/or LGBTQ+ communities who are receiving services at RBHA North Campus.

VOLUNTEER PROJECTS

Through our partnership with **Hands On Greater Richmond, the Community Foundation for a Greater Richmond, and Richmond ToolBank**, we have had the opportunity to partner with **Altria Employees** and **CarMax Employees** to tackle large, and smaller projects, that all make a tremendous impact for our organization.

The time and skill - not to mention the sweat equity value and actual sweat - that these volunteers contribute, transform our treatment spaces in ways that we could never otherwise hope for.

THANK YOU.
